2. The mines in the Zexice area are being worked full time; those at Vojnesken have been dug to a depth of 100 meters, and the ore is reportedly of high quality at both these areas. Production is being supervised by an unidentified Russian, and the mines come under the jurisdiction of the Jachymov Mines.
3. About 200 German PWs and Czech miners are working the mines at Vojnesken; 60 persons handled the administration there. Guards are supplied by the SGB, and the area is surrounded by an electrified barbed wire fence.
